What is TickLIVE?

TickLIVE merupakan platform website yang dapat digunakan untuk membeli tiket dari event tertentu. Pengguna dapat membeli tiket dari event yang ingin dikunjungi serta dapat memilih posisi kursi yang diinginkan. Selain membeli tiket, website ini juga dapat dimanfaatkan oleh penyelenggara acara untuk menjual tiket dari acara yang diselenggarakan.

TickLIVE memanfaatkan beberapa **API External** seperti Clerk API untuk integrasi fitur login, Midtrans API untuk integrasi fitur pembayaran, dan Google Maps API agar lokasi event dapat dicek secara langsung dari Google Maps.

Ketika memasuki halaman TickLIVE, pengguna dapat melihat-lihat tampilan awal dari website seperti list event yang tersedia. Akan tetapi, jika ingin memesan tiket atau mengadakan event, pengguna harus login terlebih dahulu. Dengan ini, pengguna dapat melihat-lihat website terlebih dahulu sebelum menggunakan fitur website secara penuh.
